

Nova M3 MRV320 Receiving Card Specifications

V2.0.1 2013-11-14

1. Functions

Nova M3 MRV320 is the advance model of Nova receiving card. It is compatible with all functions of MRV300, and supports monitor card connection to achieve comprehensive monitoring. Its functions are as follows:

- 1) Single card outputs 16-group of RGBR 'data;
- 2) Single card outputs 20-group of RGB data;
- 3) Single card outputs 64-group of serial data;
- 4) Single card support resolution 256x226 ;

- 5) Support configuration file readback;
- 6) Support program copy;
- 7) Support temperature monitoring.
- 8) Support Ethernet cable communication status detection;
- 9) Support power supply voltage detection;
- 10) Support pixel by pixel brightness and chromaticity calibration.

Brightness and chromaticity calibration coefficients for each LED;

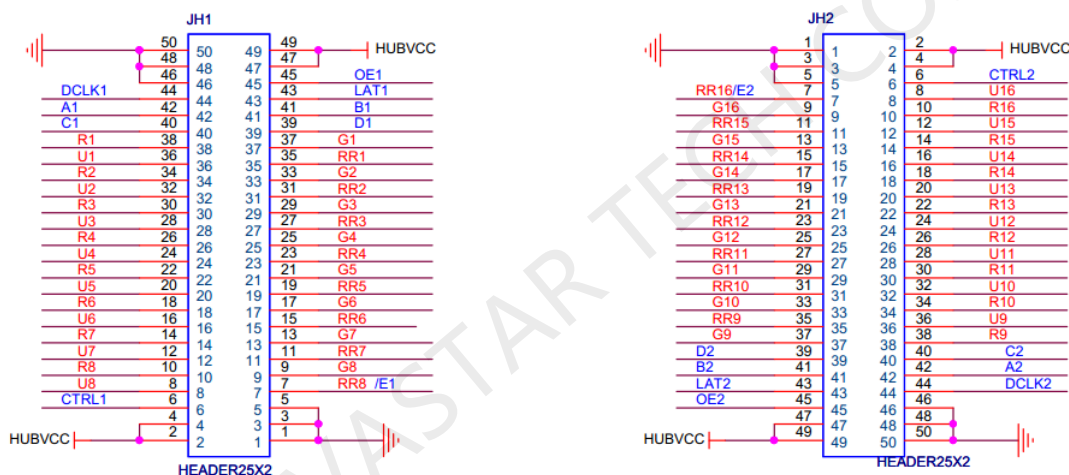

- 11) Support pre-store picture setting;
- 12) Comply with EU RoHs standard;
- 13) Comply with EU CE-EMC standard;

2. Output interface definition

Under all the three different working modes of it, two 50P interface can output different data, and only one common program and software is required, no customized program necessary; interface is defined as follows:

1) 16-group data mode

Support 16-group of RGBR 'parallel data, defined as follows:

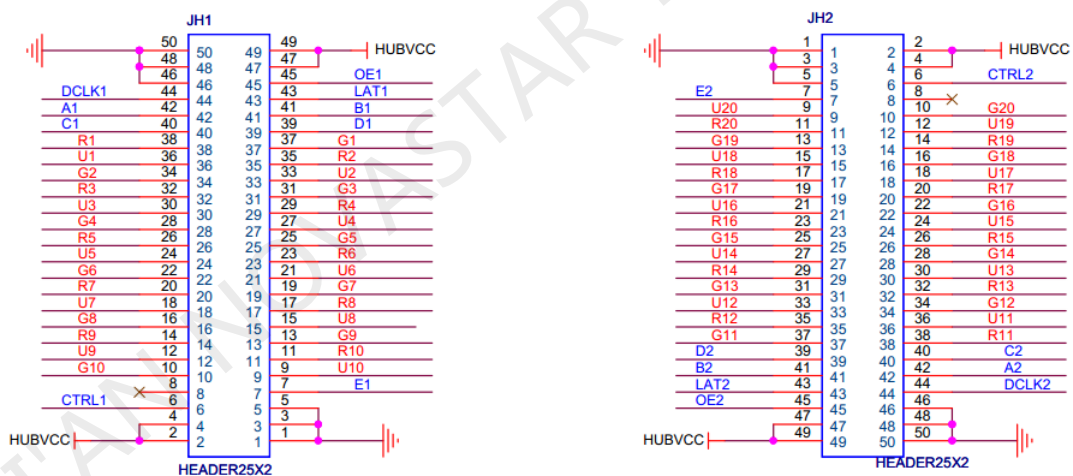

Virtual R signal in the last data group of each 50pin hub is decoding signal E at 1/32 scan mode.

3) 64-group serial data mode

Support 64 sets of serial data, defined as follows:

Under serial mode, there are 64 data cables totally. Each cable can drive one LED bar independently.

In case of horizontal LED bar, the default is, Data1 drives the first row

from the top, and Data64 drives the 64th row. (front view)

In case of vertical LED bar, the default is, Data1 drives the first column of from the left, and Data64 drives the 64th column. (front view)

4. Specific Model List

To meet the needs of different customers, Nova provides more specific models of the products, including standard products in stock, other models need to be customized;

Model	Specification
MRV320 - 1	Standard model, male connector on top
MRV320 - 2	Male connector on bottom
MRV320 - 3	Female connector on top
MRV320 - 4	Female connector on bottom
